mixing

First Choice for Mixers...

Belle Group's range of concrete mixers has proven appeal worldwide to the professional, rental and DIY user. Market leaders in portable concrete mixers offering mixers from 90 to 220litres.

Models include: boxed DIY, professional boxed, upright, site mixers, mortar mixers.

Portable Tip-up Mixers

Minimix 150

The best selling mixer for construction and rental in the UK. Lightweight but effective the Minimix 150 operates in confined spaces, at barrow height on the stand, or simply wheeled to the job. Now with improved paddles for a quicker mix.

Minimix 130

- Portable mixer ideal for DIY users
- 90 litre output
- Available boxed for DIY and retailers
- Electric only

Minimix 150 Features

- Portable stand allows barrow height mixing and tipping
- Easy access cover for fueling and maintenance
- Fully insulated motor, lead and (IP45) plug
- Lightweight - only 57kg, compact enough for the car boot
- Available boxed for easy stocking and transport

Minimix 130 Features

- Fully insulated motor and lead
- Ideal for DIY use

Wheeled for easy transport

Compact, ideal for small jobs

Light and effective, the Minimix 130 mixes a full barrow load

Easily wheeled to the job

MAXI

Upright Mixer

Maxi mixers are high quality, upright mixers popular at most building sites.

- Petrol or electric
- Strong wheels
- Loads or tips either side for fast operation
- Barrow height discharge
- Multi-position locking handwheel operation
- Extremely easy to maintain

MU 50B

Upright Mixer

MU50 mixers are lightweight electric upright mixers.

- Electric upright mixer
- Foot operated hand wheel lock
- Tips both sides
- Simple ring gear system
- Economical mixer

PREMIER XS

Site Mixer

An advanced range of mixers with many design features to give years of trouble free service. Choose the mixing capacity and drive option to match site requirements.

- Extra rigid mixing drum with reinforced rim
- Enhanced mixing performance with a unique paddle design
- Foot operated tipping lock gives operators safe control
- High specification gearbox to survive the worst site conditions
- Lockable engine compartment, operates with the lid closed
- Lifting eye and fork sockets for ease of transport
- Stackable for shipping and storage

MASTER MIX

Site Mixer

A range of large capacity mixers designed specifically to meet the demands of heavy duty sites. Many up to date features are combined with solid engineering to produce a reliable mixer for modern building sites.

- Built for long-term performance
- Reinforced drum rim for extra durability
- Special paddle design mixes better and faster
- Foot operated tipping lock
- Popular European 'rack and pinion' ring gear drive
- Double insulated electrics with protection to IP45
- CE compliant, with NVR (No volt return) safety power switch
